Education

- **MCA (Appearing)**

Manipal University Jaipur(Online)
August 2025 - Present

- **Full Stack Web Development**

Masai school, Bangalore
May 2022 - April 2023

- **B.Sc (Agriculture), 7.3 CGPA**

CSJM University Kanpur U.P.
June 2019 - April 2023

- **Intermediate**

Navyug Inter College, Mihinpurwa
April 2017 - April 2019

Technical Skills

Java | Java-8 | Multithreading | React
Spring Boot | Microservice | Kafka | JPA
Spring Security | Hibernate | ORM | JWT
HTML | CSS | JavaScript | REST API | AWS
MySQL | JDBC | JSP | Git | CI/CD Pipelines

Soft Skills

Quick Learning | Leadership
Good Problem Solver
Good Communication

Certificates

- **Problem Solving (DSA)** 
HackerRank , October 2022

- **Cascading Style Sheets (CSS)** 
HackerRank , October 2022

- **SQL (Basic)** 
HackerRank , Navemver 2022

Interests

Learning new technology | Travelling
Playing cricket | Listening to music

Professional Summary

Java Full Stack Developer with 2 years and 10 months of hands-on experience in designing and delivering scalable, production-ready applications. Strong expertise in Java, SpringBoot, JSP, MySQL and REST API , with proven experience integrating third-party services such as Firebase, Jira. Adept at building robust backend systems & developing dynamic, responsive user interfaces using JS. Passionate about clean code, system optimization & delivering reliable business solutions.

Work Experience

1. SunbaseData LLC (Remote, USA)

"Java Developer" September 2024 to January 2026

Areas of Responsibility: sunbasedata.com

Firebase Notification System:- Designed and implemented a Firebase Cloud Messaging (FCM) solution using Java & Spring Boot, creating secure REST APIs for real-time push notifications and seamless frontend integration.

Jira Software Integration:- Built Jira service integrations in Java to create, update, sync, and manage Jira issues directly within the Sunbase platform via REST APIs and OAuth-based authentication.

Dynamic CRM Dashboard(Big Number Widgets):- Developed a dynamic, configurable dashboard system using Java APIs to fetch real-time CRM metrics and historical data, enabling flexible widget configuration without code changes.

Google Analytics & Search Console:- Implemented Google Analytics (GA4) and Search Console APIs in Java to build marketing dashboards providing SEO insights, keyword performance, traffic analysis, and lead attribution.

Tech Stack : Core Java, Spring Boot, Spring Data JPA, Spring Security, validation, Hibernate, MySQL, JSP, Servlets, HTML, CSS, JavaScript, OAuth 2.0, Git, GitLab,Lombok, Swagger-UI, IntelliJ

2. Haarmk Infotech Pvt. Ltd . (Noida, India)

"Java Developer" April 2023 to September 2024

Areas of Responsibility: spinnyhost.com

SpinnyHost:- Building domain and hosting websites from scratch, adept at applying OOP, design patterns, and SOLID principles. Successful in implementing CCavenue and Razorpay payment gateways using Java J2EE, Spring Boot, and MySQL. Expert in role-based authorization through Spring Security and JWT for heightened security. Committed to delivering top-tier, performance-driven websites aligned with business requirements.

Hospital Management Application :-

Individually developed a full-stack Hospital Management Application using Core Java, Spring Boot, Spring Data JPA, Spring Security, Hibernate, MySQL, and related tools, featuring patient appointment booking, secure authentication, and role-based access for super admins and doctors, showcasing expertise in end-to-end development, authentication, and database management.
